

Wellmaster 150 x 8"/200mm

Technical Specification		
Diameter	inch	835
	mm	200
Standard Colour		Blue
Minimum burst pressure	bar	35
Minimum tensile strength	tonne	20
Nominal riser weights	kg/m	3.4
Maximum Diameter Swell under normal operation	%	1.5
Maximum extension under normal operating conditions	%	2
Maximum recommended continuous working head	m	150
Maximum recommended loading *	tonne	8.0
Nominal coupling weight	kg	30.0
Water temperature range	°C	-40 to +50
Recommended water pH range	below 30°C	4 to 9
	30°C to 50°C	5 to 9

* Including weight of couplings, water, pump, power cable, surface head and any other attachments.
